### **Water Line Repair Update: Traffic Lanes on Calle Santa Cruz, Valencia to Drexel to Remain Restricted Until Friday, September 11.**

Tucson Water Maintenance crews responding to an emergency leak on a 24" water main have determined that additional work will be required to complete the repairs.

As a result of the Emergency repair the closure of one northbound and one southbound lane on Calle Santa Cruz, between Valencia Rd. and Drexel Rd. has been extended.

The closed traffic lanes are expected to reopen by Friday September 11. Although one lane remains open in each direction, motorists should be prepared for traffic delays and plan accordingly. If driving in the vicinity, please exercise additional caution to help ensure the safety of the workers.

A crack in a 24" pipe caused a significant leak. Water service is uninterrupted for customers in the area, including Pima Community College.
